EDUCATION

Bachelor of Computer Science(B.C.Sc)
Computer University(Monywa, Myanmar)
2013-2018

TECH SKILLS

- Html5 , Css3, JavaScript(ES6+) (Advanced)
- Reactjs (Advanced) , ContextAPI (Intermediate), Redux Toolkit (Intermediate) , Nextjs (Intermediate)
- Tailwindcss (Intermediate), MaterialUI (Intermediate), Shadcn/ui (Basic)
- TypeScript (Basic), Java (Basic)
- Git, GitHub (Intermediate)
- Agile, Scrum (Basic)

Zaw Zaw Myint

Frontend Developer

ABOUT ME

I am a results-oriented web developer with three years of experience in the ever-evolving landscape of web development. Over the past year, I've specialized in React.js, channeling my passion for crafting seamless and engaging user interfaces. My journey has equipped me with a robust skill set, encompassing the latest technologies and best practices. I thrive in dynamic environments, adapt quickly to challenges, and consistently deliver high-quality solutions. Eager to contribute my expertise and innovation to projects that push the boundaries of web development.

CAREER OBJECTIVE

- Leveraging three years of experience as a Front-End Developer, I aim to apply my in-depth knowledge of HTML, CSS, and JavaScript to create visually appealing and highly functional web applications.
- Recognized for my efficiency and smart working approach, I seek to seamlessly blend creativity with technical proficiency in order to deliver innovative and user-centric user interfaces.
- Eager to be part of a collaborative team where my adaptability and passion for cutting-edge technologies can contribute to the success of dynamic projects in the ever-evolving field of web development.

WORKING EXPERIENCE

Frontend Developer (Remote)

May, 2023 - Present

Tumoco I Japan

As a Frontend Developer in my current role, I lead the development of a content management system (CMS) project using React.js, Redux, and Material-UI (MUI). Leveraging these technologies, I focus on creating an intuitive and visually appealing CMS interface. With expertise in Redux for streamlined state management and Material-UI for a polished design language, I actively engage in collaborative efforts and code reviews. Committed to staying current in the fast-paced field of front-end development, I strive to deliver solutions that align with project goals, ensuring a seamless and enhanced user experience.

CERTIFICATIONS

- Professional Web Developer (Ei Maung-Fairway)
- A+ & Networking (Computer University , Monywa)
- Essential skills for Business(Strategy First)

LANGUAGE

- English (Conversational)

Frontend Developer

Oct, 2022 - Jan, 2023

Myanmar Web Creator | Myanmar

In my role, I spearheaded a cosmetic e-commerce project as a Frontend Developer. Employing Next.js, Material-UI, Tailwind CSS, and Zustand for state management, I directed the development of an engaging and responsive online shopping experience. Leveraging Next.js for efficient server-side rendering and seamless navigation, combined with the design flexibility of Tailwind CSS and the state management capabilities of Zustand, I ensured a dynamic and visually appealing platform. This experience reinforced my adaptability to diverse tech stacks and showcased my commitment to delivering sophisticated solutions in the ever-evolving landscape of web development.

Developer

Feb, 2022 - Sep 2022

Dir Ace Technology | Myanmar

As a developer in my role, my main focus lies in working with the Zabbix monitoring system. While my day-to-day coding tasks may not be extensive, there are periodic requirements that prompt me to delve into studying Golang. These learning initiatives are typically scheduled and aligned with specific project needs. The transition from Zabbix configurations to Golang studies adds a dynamic aspect to my role, ensuring versatility in addressing diverse technical requirements. Navigating between monitoring setups in Zabbix and learning Golang contributes to a holistic skill set, allowing me to adapt to both the operational demands of our infrastructure, as well as the coding aspects required for certain projects. This dual proficiency underscores my commitment to staying adaptable and contributing effectively to our team's varied needs.

Web Developer

Oct, 2019 - April, 2021

Myanmar Information Technology | Myanmar

During my tenure at MIT as a web developer, I led the development of a sophisticated microfinance project. On the frontend, I crafted a user-centric interface using AngularJS and Bootstrap, prioritizing a seamless user experience. For the backend, I implemented a robust architecture with Java and Microsoft SQL Server, ensuring data integrity and security. Embracing Agile methodologies, I facilitated collaboration among cross-functional teams, promoting adaptability and efficient project delivery. The integration of Azure for cloud services enhanced the project's scalability and performance. My experience at MIT not only sharpened my technical prowess but also instilled a commitment to delivering high-quality, innovative solutions. Eager to apply my skills to new challenges, I bring a comprehensive understanding of web development, project management, and a passion for staying at the forefront of technological advancements.
